

MORE ABOUT CHARITY MEETING

Committee Appointed at Yesterday's Meeting on Permanent Organization.

MANY PROPOSITIONS SUGGESTED

The meeting held at the Commercial club yesterday for the purpose of providing some means of taking care of the poor and indigent sick of Albuquerque accomplished much. It made much headway toward the goal which is sought, and a permanent organization of associated charities promises to be the result.

Statistics showing the burden being carried on by the St. Joseph hospital and the Non-Sectarian Benevolent society, heretofore unknown to the public, were of astonishing magnitude and revealed clearly the great need of a public poor house or home for the friendless.

When these statistics were heard, the meeting was moved to immediate action. Many enthusiastic speeches were made and many plans suggested. Upon a motion of R. P. Haddad, seconded by Mrs. Bernard Lloyd, Rabbi Kaplan, of the Jewish synagogue; Rev. A. C. Harrison, pastor of the St. John's Episcopal church, and Nestor Montoya, representing the Sisters of Charity, were elected a committee of three on permanent organization, and next Tuesday afternoon was selected as the time for this committee to report, when it is expected a permanent organization will be effected and soliciting committees selected.

Dr. James H. Wroth, who was among the speakers at yesterday's meeting and he made a most wise proposition to the effect that first get money for immediate use by popular subscription, and then attend to schemes of giving bances, entertainments, suppers, etc., from which a certain amount of revenue can always be derived for charitable purposes.

It is to be regretted, as the meeting was non-sectarian in its nature, and charity is something we should all be interested in, that the local Salvation Army people did not participate in the proceedings of yesterday afternoon's meeting. The Salvation Army throughout the entire civilized world, do a large amount of benevolence every day in the year, and no one is turned away from their barracks, in large cities and even in Albuquerque, when they desire a place to sleep or a little food to satisfy the cravings of a hungry stomach.

SUPERINTENDENT HIBBARD VISITS LOCAL DIVISION

Superintendent I. L. Hibbard, of the Santa Fe coast lines, who is in the city on one of his periodic trips, said this morning that the present passenger business of the Santa Fe coast lines eclipsed all records of the past, and the number of people being hauled into California by the Santa Fe was equalled by only two other roads running into California. The Pacific coast states are filling up with people past all expectations of the immigration agents, who have been flooding the east with western boom literature of late years.

Mr. Hibbard's trip here is one purely for inspection purposes. The Albuquerque-Winslow division is receiving a great deal of attention just now in the way of improvements. Four steam shovels are at work on this division improving grades. One at Rio Puerco, one at Belmont, one at Ash Fork and one on the Grand Canyon route, and all of this work is being rushed so as to be completed before the cold winter sets in.

Mr. Hibbard expects to leave for the west tonight.

SCHOOL CENSUS HAS BEEN PADDED

County Superintendent Stroup Makes Very Startling Discovery.

COMPARISON OF FIGURES MADE

That the census of the various school districts of Bernalillo county has been padded in years gone by, and that to a considerable extent, is very evident in comparing the recent returns of persons of school age residing in the various districts. The returns made to Superintendent Stroup do not jibe at all with the returns made to Esalvio Vigil, the former incumbent, who was removed by Governor Otero. The returns made to Mr. Vigil are in some instances away in excess of what they really should have been, thus making a big difference when it came to apportioning the school funds.

Superintendent Stroup has favored The Citizen with a tabulated report. This report, which appears below, gives the number of children of school age by districts. The reader can easily make the comparison. The first column represents the number of school district, the second the returns made to former Superintendent Vigil, and the third column the returns made to Superintendent Stroup.

District	Returned to Vigil	Returned to Stroup
1	180	87
2	176	104
3	733	503
4	225	119
5	110	68
6	160	130
7	227	170
8	170	120
9	150	No return
10	150	No return
11	150	No return
12-26	3,252	3,252
13	594	807
14	103	No return
22	133	142
23	133	67
24	133	112
25	133	45
35	116	54
36	133	99
37	85	No return
39	75	31
41	108	24
42	78	52
43	111	57
47	111	57
48	162	94
54	100	No return
Total	7,537	6,119

Mr. Vigil made an apportionment on the 30th day of September, using the figures as given in his column, as the basis. The figures in the third column were in the office of the county superintendent on October 9, with three exceptions. Since the school money is divided pro rata, it makes a big difference in the money for the different districts if the census is not properly made.

On the 30th of September there were \$2,014.80 to be divided among the districts, and it was divided among the 7,531 children by Mr. Vigil, when, according to the best information Superintendent Stroup has, it should have been divided among 6,143 children, at the very most. This is counting the four districts that have not yet made returns on the same basis with the returns these districts made last year.

There is now the sum of \$1,814 more to be divided as soon as these four districts can be heard from.

SPORTING... BREVITIES

Jockey Rottier will be out of the racing game for some time as the result of an automobile accident. His left arm was badly shattered and he is taking on weight rapidly during his recuperation. Rottier expects to ride in France and England next year.

When Clark Griffith returns to the solitude of his ranch in the Montana hills he shuts himself out from the world, not allowing even a magazine or a newspaper to reach him for one entire month. The mental strain on a ball field is no bluff, evidently, the gray matter of some of the hard thinkers slumping off like overripe grapes.

The open season for challenging Batling Nelson is still on, and every second-rater from Broadway to Market street is justly coaxing the Dane to "give 'im just one chant" to knock his block off. By and by Nelson will come out of the actor game and a whole round of boxers will fade away like a bad carrier's flannels at their first immersion.

The diamond rings and watches and chains that were not given by admiring friends to Ruben Waddell this season are still on display in Philadelphia show windows.

Yale coaches are trying to develop the offensive playing of the eleven. The showing made against Pennsylvania state disclosed the weakness of Old Nassau. The team plays a strong game in every department except defensive, and every effort will be made to remedy this defect before the team meets any of the big e-levers.

Andrew Radolph of Detroit, has offered Garry Hermann \$25,000 for the Toledo franchise in the American base ball association. The price fixed by Hermann is \$50,000.

Brown and St. Louis came out even on the season while their players traveled around the circuit enjoying the scenery. The Giants cleared \$100,000. Chicago is said to have cleared \$50,000. In the American League Chicago and Philadelphia were the big money makers, each going in to \$100,000.

Joe Bowker, the English holder of the bantamweight title, has had to surrender it to corn beef and cabbage. He has outgrown the weight limit, and Owen Moran has fallen heir to the coveted title. Bowker is now fighting the lightweight division.

Your Uncle Adrian C. Anson would like to burst into the National League in a managerial capacity, preferably in the Windy City. Friends of "Pop" Anson are behind him in his effort to succeed Jas. A. Hart and there is a pretty strong show of landing the old man in the coveted place.

After Billy Rhodes stowed away Cy Flynn in 14 rounds, near Kansas City, last Monday, he wired a challenge to Joe Walcott and Billy McElody for the welterweight championship. In all probability Rhodes will have to put away a few more second rounds before he can have a home for recognition from Walcott or McElody.

Halfback Dunlap of Michigan has wrenched his knee so badly in the game with Nebraska that he will be out of it for the rest of the year. He was regarded as the most promising back in the Ann Arbor team.

Wisconsin is not cast down by the defeat administered by Chicago, and hopes to defeat Minnesota and Michigan. There is a strong belief in Madison that Chicago may lose to Minnesota, in which event Stag's men would have a clear title to the championship.

Two Harvard men were hurt in the game with West Point. O'Brien had his nose broken and Montgomery's knee was wrenched. Harvard has let out an awful holler against the interference of Empire Stauffer and Reggie Langford, and claimed that both teams suffered from this interference.

In the event that France returns the Vanderbilt cup, won by Hemery, over the Long Island course, the races next year will be held on Long Island just for the same and for the same trophy. France has transferred the famous race for the Bennett cup into a touring contest. The big success of the Vanderbilt race assures an international meet here next year.

The growth of the automobile business is shown in the fact that a New York firm has built a garage with a storage capacity for 500 cars. The garage will contain every known convenience for the care of automobiles. The place will cost \$500,000.

Terry McGovern has decided to go on the stage again. As a bad actor, young Terry was entitled to all the overripe hen fruit available. McGovern lost his health and fighting qualities on the stage before, but the costly lesson evidently served no good purpose. Some kind friend should take Terry to one side and beat a little common sense into his head.

M. W. Savage, owner of Dan Patch, has just received an offer of \$100,000 for the fleetest of pacers. Mr. Savage bought the horse in 1902 for \$60,000.

INDIAN SCHOOL NOTES

The ladies of the school believe in keeping abreast with the spirit of the times and they have organized a women's club for the mutual improvement and entertainment of its members. The name of the club is Swastika, and is so called after the Navajo emblem for "good luck."

The meetings are largely of a social nature and help greatly to relieve the monotony of institute life and keep the members from taking a cynical view of life in general.

The club has had several interesting meetings and last evening's were entertained by Mrs. N. J. Oliver and Miss D. G. Davis. After the usual social games, etc., they were treated to some appetizing refreshments.

Two Dyspeptics

If you are too fat it is because your food turns to fat instead of muscle—strength. If you are too lean the fat producing foods that you eat are not properly digested and assimilated.

Lean, thin, stringy people do not have enough Pepsin in the stomach, while fat people have too much Pepsin and eat enough Pancreatins.

Kodol

Dyspepsia Cure

contains all the digestive juices that are found in a healthy stomach, and in exactly those proportions necessary to enable the stomach and digestive organs to digest and assimilate all foods that may be eaten. Kodol is not only a perfect digestant, but it is a reconstructive, a bone building tonic as well. Kodol cures indigestion, Dyspepsia, Sour Stomach, Heartburn, Palpitation of the Heart and Constipation. You will like it.
